

I am a proud father of two boys who are both Nighthawk players.

I was born and raised in Cobourg and have owned and operated a local, family business for 20 years.

Last season, I served on the Executive Committee as the Director of Administration. I enjoyed that role and look forward to continuing to build on the longstanding relationships that we have established in our community by way of sponsorships.

I feel that minor hockey is a fantastic opportunity for local businesses to get involved and support the children in our community. I am excited to seek our new opportunities and continue to support existing ones with a mutually beneficial relationship.

Thank you for your support last season as I took on this new position. I am looking forward to lending my time and efforts again to the NMHA, and helping to ensure that our kids get the very best experience in their minor hockey careers.
