

Hello, my name is Frank Francella. I have been in the hockey for a better part of 40 years, playing my minor hockey in Sault Ste Marie. I have helped and been a part of coaching staffs and a head coach for the last 20 years. I recently held the title of VP of Rep which I worked very hard with the other members of the executive to put forth new initiatives and renew other initiatives within the association. I work for the children of the association, the ones that love the game of hockey and want to improve and overall have fun in a supportive and inclusive area. I hope I can continue to be the kids voice within the association to ensure everything get to play the game they love.
