

Hi I am Melissa Johnstone. I am a hockey mom to an 11 year old. I have grown up in the hockey world both playing and following around my younger brother. I know the commitment of being a hockey parent is immense in both time and financially but the results truly do exceed all of that to watch your child be so excited to lace up the skates and head onto the ice. If I am voted into the secretary position I will bring in a knowledge of proper meeting procedures from my current employer and ensure all executive members are held to their promises they made when accepting their nominations. I want what is best the for children and only them.
